

Life Is No Coincidence - The Life and Afterlife Connection Review

Thinking for a Change

"Life Is No Coincidence: The Life and Afterlife Connection Author Says that Happiness and Healing Depends on Disposition"

LINCOLN, Neb. (May 2, 2006)- In CBS's hit primetime series, *Ghost Whisperer*, Melinda Gordon, played by Jennifer Love Hewitt, "has been able to see and talk to dead people--earth bound spirits who have yet to cross over to the other side and who seek her help in communicating and resolving unfinished business with the living." And although the character "embraces her unique abilities as a blessing and sometimes a curse, she always helps her clients--alive or dead-- find emotional closure."

Such is also the case for author Sheryl Glick who reveals a very personal journey in her recently released, **Life Is No Coincidence: the Life and Afterlife Connection**. Going from no belief in eternity, through a visit from her deceased grandfather, to understanding that afterlife is real and "coincidences" are in essence, life's signposts, Glick's understanding of healing and an eventual practice of Reiki, was enhanced.

Stop and reflect for a moment. Imagine the implications of the universe surrounding us and the energy which can be shaped and manipulated by mere thoughts. Might this make some diseases, even hardships faced by all, easier to understand, especially adversity and suffering confronted that has no apparent physical cause? If the world is energy subject to the power of thought, then prayers must work. Really, as Glick would state, we create our own reality from our thinking and the thoughts we share between each of us every day. And with Reiki, emotional difficulties are just as healable as physical ones since emotional issues are even more directly present in the energy structures.

The visitation :from Glick's grandfather, when faced with her own illness, opened wide swaths of understanding for Glick. She ultimately learned that we all have the ability to communicate with our guides, spirits of loved ones, guardian angels, saints, or just "coincidences" that show us the way.

In **Life Is No Coincidence: The Life and Afterlife Connection**, Glick shares her love with readers which will allow her audience to transcend their wounds and help them remember their true nature~ determining, fundamentally, why they really exist.

About the Author:

Sheryl Glick, an accredited Reiki Master practitioner and medium, offers healing sessions and teaches intuitive psychic development. She is a member of the International Spiritual Federation and is a Hospice volunteer. Previously, Glick (MS and BA, Education/Literature) taught elementary and special needs children in New York City.
